Autoimmune Disease Verification Form

REQUEST FOR DISABILITY VERIFICATION OF AN AUTOIMMUNE DISEASE

Form is to be completed by a physician or other licensed professional appropriately qualified to diagnose the specific disability of the individual. Please return to the Accessibility Services Office.

To ensure the provision of reasonable and appropriate services for students with an autoimmune disease, the Accessibility Services office requires students to provide current and comprehensive documentation of their disability and its impact on their education. To standardize the gathering of such information, we ask that you complete the following and return to the address above. All material will be kept confidential.

Student Information

Student Name: _____

1. DSM-5 Diagnosis (ICD-10 Code) _____

2. Date of original diagnosis _____
   Please include any evidence of early impairment, whether or not the student received treatment:

3. Date of most recent evaluation _____
   (documentation should be current, within the last 3-5 years; include update of the diagnosis if diagnostic report is older than 6 months)

4. Summary of symptoms and test findings which support the diagnosis, including any results from testing. Please include: 1) history of presenting symptoms; 2) duration, severity and prognosis of the disorder; and 3) relevant developmental, historical and familial data. Describe below and attach a list of test instruments and results; subtests should be included.

5. Describe any treatment plan(s) including a description of the student's responsibility:

6. Describe the student's current functional limitations in an educational setting
    a. Indicate which major life activity/activities is/are substantially limited by this disability/chronic health condition (circle all that apply): caring for oneself, performing manual tasks, seeing, hearing, speaking, breathing, learning, working, etc.
    b. Describe any additional functional limitations imposed by the disability/chronic health condition, particularly in an academic setting (e.g. writing, taking notes, carrying heavy awkward items distances over 200 feet, using stairs, walking distances in inclement weather, etc.)

7. Is this student currently on medication(s) that may affect their academic achievement? If so, provide relevant information about their medical history:

8. Please provide your specific recommendations (based on your assessment, the student's clinical and academic history and diagnosis) for accommodations that you believe will help equalize the student's ability to access the Lewis-Clark State College's educational program.
